Deliverables

1. [Project Roots is now on Google maps!](#)
 - a. We emailed folks asking them to leave reviews on Project Roots as well.
2. Map with zoomed-in directions around Spaces of Opportunity itself, copied here, file submitted alongside this file:

3. Map with bike and bus routes to Project Roots, copied here, file submitted alongside this file:
 - a. Some of the feedback given was unable to be incorporated, namely feedback suggesting that we remove the route on Broadway road and that we add bus stop numbers to each stop. We chose to keep the route on Broadway, as there may be folks living in that area who will need to utilize multiple bus routes in order to reach project roots. We also chose not to include bus stop numbers to each stop because each number is four digits long & each stop often has 2-3 routes serving it, and the amount of text needed for each tiny stop simply was not practical to include on this map. All other feedback was used—thank you!
