

“Close your eyes and imagine you are a worm...”

Building a vermicompost with 2nd graders at Davis Bilingual Elementary

Davis Bilingual Elementary students test the senses of worms in an open-ended experiment.

- Materials:
- Worm anatomy poster
 - Apple chunks
 - Orange slices
 - Spray bottle
 - Paper towels
 - Magnifying glass

The vermicompost lesson I gave at University High School had a more age-appropriate introduction

Your vermicompost should be D.A.N.K.

Dark

Aerated

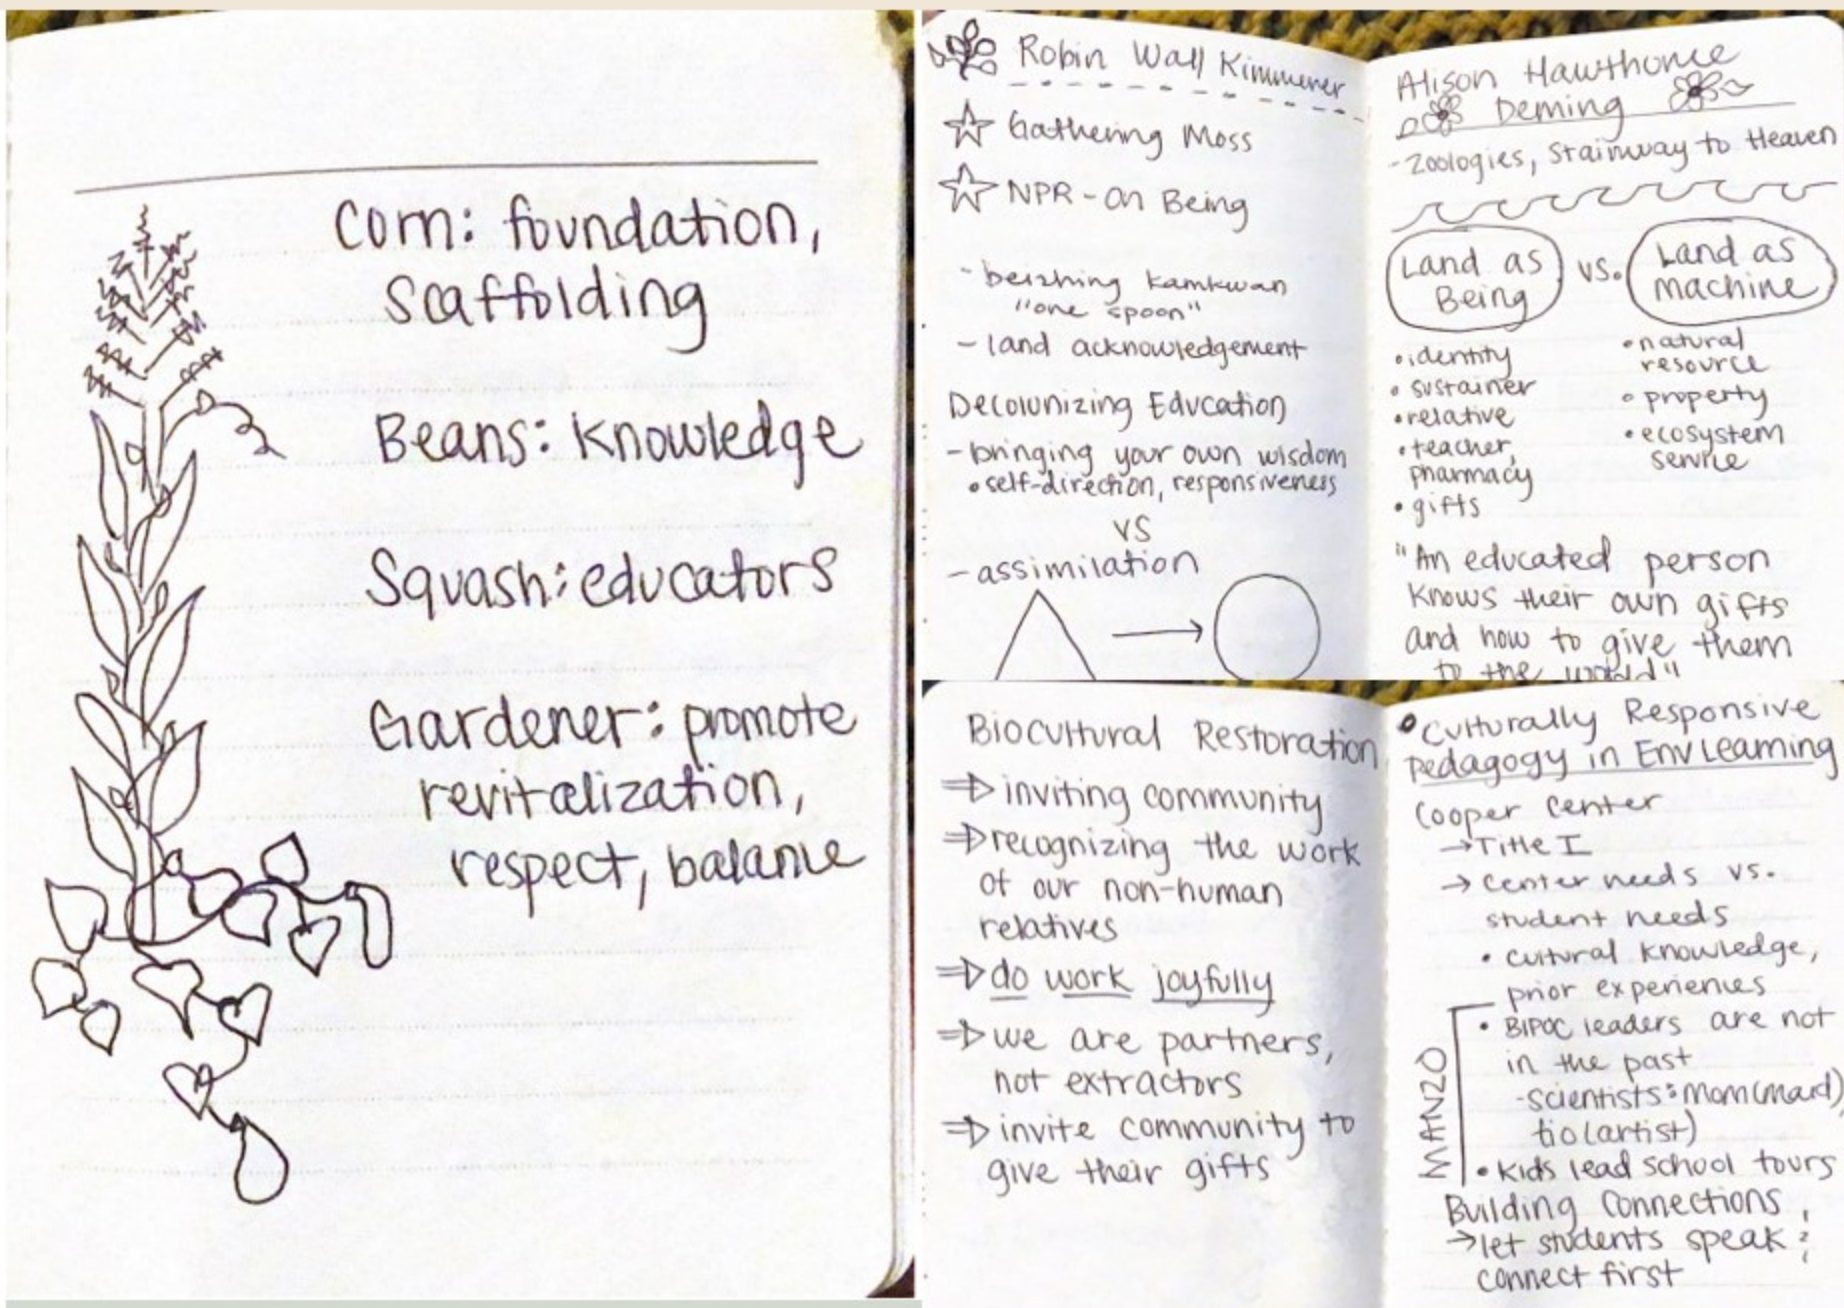

Neutral Temperature
55-75° F

Kept Moist
70-80%
